Clarified Re-Submission of Trial Exhibits from Opposer's Declaration Pt 1

Part 1 – Exhibits 1-17
(High-Res Resubmission)

Opposer respectfully submits these re-formatted, higher-resolution versions of exhibits originally filed during the trial phase. Due to the file-size limitations imposed by the ESTTA system, several of the original submissions were compressed, which resulted in reduced image clarity and legibility. With the exception of a few exhibits that were inadvertently omitted and are now included, no new evidence is being introduced. The re-submitted materials are identical in content to those previously filed, with improved formatting for clarity and ease of review.

In certain instances, Opposer has provided additional context or labeling to assist in the authentication of digital documents, including clarification of screenshot origins and metadata where applicable. These clarifications are made solely to aid the Board in verifying the authenticity and relevance of the material already in the record.

Pursuant to TBMP § 518, Opposer respectfully requests that the Board accept these corrected exhibits and consider them in support of the pending Motion for Reconsideration.

Declaration of Authenticity

I hereby affirm under penalty of perjury that the screenshots and digital documents submitted herewith were personally captured by me using Apple devices during the normal course of my research, education, and commercial activity under the GAGE brand. Each image reflects a real-time capture of public-facing online content—including social media posts, search results, domain records, and third-party articles—as it appeared on the dates specified in my prior Declaration and Notice of Reliance.

These exhibits are true, original, and unaltered representations of digital evidence. Cropped or partial screenshots were intentionally formatted to highlight the relevant sections of the page, consistent with standard Apple screenshot tools. The absence of visible URLs or time stamps in some exhibits is due to device functionality and does not compromise the authenticity or integrity of the content.

These materials are submitted in good faith and should be accepted under the applicable TTAB evidentiary standards.

The screenshot shows the top portion of a web article. At the top left is the 'SKUNK' logo with a small animal icon. To the right of the logo, the text 'NOW READING' is displayed, followed by a vertical line and the page title 'Probiotics 101'. Below the logo, the text 'READ NEXT' is visible. The main article title is 'Healing of the Nation'. The first paragraph of the article reads: 'Our beta test group, The Probiotic Farmers Alliance really helped us dial in the end product. Between myself and the Gage Green Group, we started an amazing group that analyzed all the information with a fine comb and could take the information to the next level. By using scientific methods, and justifying our findings with peer reviewed sources, the PFA created a wealth of information that was once unknown to medicinal gardeners. Since then, the Probiotic Farming method has evolved into something we could never accomplish on my own.'

OUR MISSION is to provide outstanding quality cannabis to medical marijuana patients on a consistent basis. We offer our handcrafted seeds to a diverse group of growers who rely on top shelf quality every cycle. We compete with ourselves for the best!

OUR PROCESS is organic and natural. Our products do not contain artificial chemicals or hormones because patients are our first priority. Our state-of-the-art technique is exceptional in all aspects of growing and breeding.

OUR DESIRE is your success.

Gage, the name Louis Armstrong used for marijuana, inspired countless Jazz and Blues artists to perform their beloved tunes to the hearts of people around the globe. In the same way, Gage Green has been inspired to cultivate unparalleled medicine for patients seeking the best cannabis.

We, at Gage Green Group, strive to uphold the highest level of excellence and philanthropy in all our pursuit for the finest cannabis. Our process never compromises and our cannabis genetics are designed for those who want the best.

Gage Green Group is a responsible and environmentally-conscious organization that strives to bring about positive change to all communities. Gage Green Group will empower those who use cannabis as medicine; by not only producing the highest quality cannabis genetics, but by also striving to make the world a better place for everyone.

Stay blessed!

"Gage Green Group follower Realonlovepottery and a rep for Cookies and the defendant. Realonlovepottery expresses her confusion, in which the rep responds, "The Excellent Products & the checkbook is all that matters." This response from a representative of the defendant clearly values the checkbook over his integrity or ethics. These are the types of individuals associated with the defendant.... <http://www.instagram.com> Captured on 10/10/19."

I've risked my freedom and the safety of my family to get where I'm at , my company is private and i work 19 hour days , none of the shit my team has accomplished was easy . 3rd , what ever you and gage have going on is between you guys . You say they grow poison?? Everything I seen was beautiful. [@tricktrickgs](#) vouched for then and there team goes hard . The industry is forever changing and you have to adapt or you will drowned. You have a lot of hate in your post . You know how many people bootleg my brand ? Or use the name cookies ? Do I throw a fit ? No , I let my work ethic speak for me and kill em with success. I suggest you do the same. It's 2019 , fuck negativity . Much love and I hope you continue to win . 36m
